

Madam Speaker, it indeed is an honor and a privilege to know this great man who not only shows the qualities of a dedicated soldier, but also does what is best for his country.

CONGRATULATIONS TO THE
O'SULLIVANS ON THEIR 50TH
WEDDING ANNIVERSARY

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. COSTA. Madam Speaker, I rise today to congratulate Mr. and Mrs. Owen Michael O'Sullivan on the celebration of their 50th wedding anniversary.

Owen and Geannine O'Sullivan were married 50 years on June 14, 2008. They raised 4 children and have 12 grandchildren.

Owen was born in 1935 in New York City, NY, where he lived with his parents, two brothers and a sister. He graduated from Cardinal Hayes H.S. in 1953 where he studied trombone and further developed his love of music. After attending what is now known as the School of Visual Arts in NYC, Owen was drafted into the Army where his musical skills helped him become a member of the U.S. Army Band.

Geannine Bernard O'Sullivan was born in New York City in 1935. Subsequent to completing high school, Geannine was admitted to the Fashion Academy in NYC. After successfully graduating, she worked as a designer and illustrator in the city. Here she learned how designs turned into the reality of actual production. To this day, she still uses her talent and skills in the design and hand sewing of beautiful St. Nicholas dolls.

Owen met Geannine on a blind date before going overseas. However, they remained pen pals until his return in 1956. They eventually moved to Morris County, NJ, where Owen, having started in the printing industry, opened his own advertising agency, Graphicus 14. His agency grew, as did their family. Four children later, the agency became O'Sullivan Advertising/Public Relations located in Morristown, NJ. Geannine became president of Special Occasion Dresses for Children.

Owen and Geannine, devout Catholics, also gave back to their community. Their endless charity and community involvements, as well as their strong values, were known in many organizations such as the Junior Chamber of Commerce, interfaith groups and Catholic church groups. One of Owen's proudest achievements was when he was made a Knight of Malta. Presently Owen and Geannine are active on the board of the Caring Basket Gala of Assumption College for Sisters. Owen is the Charter Chairman and Geannine is a strong backup and Committee member. Over the last 7 years, they have raised over \$630,000 and helped save the college.

Nothing, though, was more important in their lives than their sense of family. "Family always comes first," they always said, and that was demonstrated almost daily throughout their 50 years together.

Congratulations again to Owen and Geannine O'Sullivan. Their story is reflective of the American dream, the children of immigrants, working hard and playing by the rules

to create better lives for themselves and their children. As a result, they have made their community, their church, New Jersey, and our Nation a better place to live for future generations.

THE NEED FOR OFFSHORE
DRILLING

HON. GENE GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. GENE GREEN of Texas. Madam Speaker, with today's high price of gasoline, I would like to insert into the RECORD an article from the Baytown Sun which highlights the need for additional domestic resources through offshore drilling.

[From the Fort Worth Star-Telegram, Jun. 20, 2008]

OFFSHORE DRILLING

Led by President Bush and Sen. John McCain, a growing number of politicians say they are willing to drop strict environmental protections to allow more offshore drilling for oil. Our response: "what took y'all so long?"

It's pretty clear to most of us on the Sun editorial board that when it comes to energy, what we really need is to produce more, use less, and find new sources of power.

This nation cannot afford to put off serious energy reform any longer. Let's start with more domestic drilling by lifting the 27-year-old federal ban on offshore drilling. The moratorium applies to all federal waters, which extend three miles from the coastlines.

However, offshore drilling is no panacea. It certainly doesn't provide a short-term answer to the high gasoline prices that have angered Americans. It would take up to five years to start pumping significant amounts of oil from new wells.

But it's a step in the right direction. Working Americans rightly believe their government has a duty to finally assure the energy security of this country.

All across this state and nation, people are hurting. Small farmers, truckers, and taxi drivers are unable to cover costs. Small business owners are struggling to meet payroll. The cost of living is rising, and the value of paychecks is falling. All of this is in large part because the price of oil is too high, and the supply of oil is too uncertain.

The American people have had enough of high gas prices and our government's unwillingness to take care of us.

According to the U.S. Department of the Interior and Congressman Ted Poe, there are approximately 420 trillion cubic feet of natural gas and more than 86 billion barrels of oil yet to be discovered along the Outer Continental Shelf in the lower 48 States. That is enough oil or natural gas to:

Maintain current oil production for 87 years and current natural gas production for 68 years;

Produce gasoline for 116 million cars and heating oil for 47 million homes for 15 years;

Replace current imports from the Persian Gulf for 59 years;

Produce sufficient natural gas to heat 75 million homes for 60 years;

And supply current industrial and commercial needs for 29 years or supply electricity generating needs for 55 years.

We are the only country in the world that does not fully cultivate their oil and natural gas resources. There is absolutely no good

reason why we cannot expand current offshore drilling in the Gulf of Mexico to the coasts of Florida, California and the eastern seaboard.

TRIBUTE TO MARVIN HAMMOND

HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. DUNCAN. Madam Speaker, Marvin Hammond, a longtime friend, has now retired for the second time, first from Knoxville Utilities Board, and now from the Hallsdale-Powell Utility District.

I did all sorts of odd jobs as a boy—selling programs and refreshments at ball games, mowing yards—but my first hourly-pay job was as a groundskeeper at Holston-Chilhowee Ball Park in East Knoxville.

I was 15, and I made \$1.00 an hour. My first boss was a 19-year-old named Marvin Hammond. He worked under Coach Raleigh Johnson, but Marvin was the one who told me what to do.

From that time in the early 1960s, I have thought of Marvin Hammond as one of the finest men I have ever known.

He went from his job as manager of Holston High School athletic teams to a position as a trainer in the Cincinnati Reds Farm System and got to know many of the all-time great baseball players, such as Pete Rose and others.

He spent most of his career as an executive with the Knoxville Utilities Board. He was one of the most popular and respected employees of KUB.

I remember my first race for Congress in 1988 when he was driving me and some other people on a campaign swing to some distant parts in our district.

One of the other campaigners, jokingly but pretending to be serious, complained about his "huge" utility bill. Marvin, very concerned, said, "Lance, How much was it?" When Lance replied "\$36," Marvin almost ran off the road.

I remember another time when I was a judge, Marvin found that I was Cubmaster of a Cub Scout troop. He told me he could get several canoes from another church and he knew some people who owned a dairy farm 45 miles away with a big lake on it.

He spent his whole day getting the canoes, helping the boys tour the farm, do the canoe rides, cook out, and then load everything back up for the return.

When I was first starting my law practice and needing to make some money, Marvin told me he was head of off-campus instruction in Knoxville for Walters State Community College.

He hired me, for \$500 a semester, to teach political science, I believe for three semesters. Many of the students were police officers, which also helped me in my law practice.

So, you can see, Madam Speaker, that Marvin Hammond has had a big influence on my life. I am very grateful to him.

But he has helped so many people over the years, and I am certain he has made his community and the Nation much better by all he has done.

Sandra Clark, another longtime friend and the publisher of the Halls Shopper News, has
